✠ SUBJECT INDEX ✠

Volume 10 2004

accidental falls
falls risk assessment and interventions 199
adult critical care
core components of legitimate influence 10
advanced clinical nursing practice
core components of legitimate influence 10
adverse event
implications of in-hospital adverse events 21
aged care
medication management of elderly people 166
AIDS
taiwanese nurses and HIV/AIDS 32
alcohol withdrawal
clients' experiences of alcohol withdrawal 80
alcohol-based solution
alcohol-based solutions for hand hygiene 3
Alzheimer's disease
anxiety, depression and Alzheimer's caregivers 93
anxiety
anxiety, depression and Alzheimer's caregivers 93
attitudes
taiwanese nurses and HIV/AIDS 32
automatic external defibrillator
in-hospital shock advisory defibrillation 86

bleeding unit
the moon and gastrointestinal bleeding 292
body temperature
errors in body temperature assessment 216
breast cancer
suffering related to health care 248

cardiac arrest
implications of in-hospital adverse events 21
carers
managing as carers of stroke survivors 121
caring relationship
suffering related to health care 248
casuistry
ethics in nursing homes 159
child health
mothers' experiences of mother blaming 150
childbirth experience
jordanian women's childbirth expectations 264
chronic pain
multidisciplinary pain management 224
collegiality
managing professionals 58
concerns
taiwanese nurses and HIV/AIDS 32
coping strategies
managing as carers of stroke survivors 121
coping
multidisciplinary pain management 224
credibility
core components of legitimate influence 10
critically ill
needs of families of critically ill patients 64
cross-cultural comparison
the life situation of the elderly 45

decision-making
the problem of postoperative pain 257
depression
anxiety, depression and Alzheimer's caregivers 93
diabetes
screening programme, Smith Island, USA 242
disability
ICF and patient assessment 134
discharge planning
managing as carers of stroke survivors 121

education
nurses' role in psychoactive substance use 102
elderly
the life situation of the elderly 45
elders
psychosocial care for older people 39
enhancing patient stay
core components of legitimate influence 10
ethics
suffering related to health care 248
evidence-based
geriatric rehabilitation nursing model 207

exercise
exercise, support and postnatal depression 177
expectations
jordanian women's childbirth expectations 264
experiences
clients' experiences of alcohol withdrawal 80
ethics in nursing homes 159
patients' experiences of nursing care 235

falls interventions
falls risk assessment and interventions 199
falls risk assessment
falls risk assessment and interventions 199
family needs
needs of families of critically ill patients 64
female caregivers
anxiety, depression and Alzheimer's caregivers 93
feminist research
mothers' experiences of mother blaming 150
functional capacity
the life situation of the elderly 45

gastrointestinal haemorrhage
the moon and gastrointestinal bleeding 292
gender
errors in body temperature assessment 216
geriatric rehabilitation
geriatric rehabilitation nursing model 207

haematological malignancies
positive spiritual outcomes for survivors 280
hand hygiene
alcohol-based solutions for hand hygiene 3
health information
ICD support group attendance 127
health-related quality of life
multidisciplinary pain management 224
hermeneutic method
suffering related to health care 248
HIV
taiwanese nurses and HIV/AIDS 32
hospital falls
falls risk assessment and interventions 199
hospital personnel
alcohol-based solutions for hand hygiene 3
hypercholesterolaemia
screening programme, Smith Island, USA 242
hypertension
screening programme, Smith Island, USA 242

implantable cardioverter defibrillator
ICD support group attendance 127
improving outcomes
core components of legitimate influence 10
individual variation
errors in body temperature assessment 216
in-hospital defibrillation
in-hospital shock advisory defibrillation 86
intercultural competence
the process of intercultural competence 111
International Classification of Functioning, Disability and Health
ICF and patient assessment 134
intervention programmes
exercise, support and postnatal depression 177
interventions
psychosocial care for older people 39
Ireland
professionalism and Irish nursing research 145

Jordan
needs of families of critically ill patients 64
patients' experiences of nursing care 235
jordanian women's childbirth expectations 264

leadership
managing professionals 58
life situation
the life situation of the elderly 45
locomotor disability
the life situation of the elderly 45

maternal and child health
managing professionals 58
medication systems
medication management of elderly people 166
mentorship
ICD support group attendance 127
model
geriatric rehabilitation nursing model 207
moon
the moon and gastrointestinal bleeding 292
mother blaming
mothers' experiences of mother blaming 150

motherhood
mothers' experiences of mother blaming 150
exercise, support and postnatal depression 177
multidisciplinary care teams
medication management of elderly people 166
multidisciplinary pain management programme
multidisciplinary pain management 224

networking
networking and nursing research in Europe 54
nurse-initiated defibrillation
in-hospital shock advisory defibrillation 86
nurses
screening of post-partum depression 72
nurses' role in psychoactive substance use 102
historical status of nursing research 272
nursing care
patients' experiences of nursing care 235
nursing ethics
ethics in nursing homes 159
nursing history
historical status of nursing research 272
nursing homes
ethics in nursing homes 159
nursing research
networking and nursing research in Europe 54
clients' experiences of alcohol withdrawal 80
professionalism and Irish nursing research 145
historical status of nursing research 272
nursing
geriatric rehabilitation nursing model 207

opinions
patients' experiences of nursing care 235
outcomes
psychosocial care for older people 39

pain assessment
the problem of postoperative pain 257
pain management
the problem of postoperative pain 257
pain
the problem of postoperative pain 257
patient assessment
ICF and patient assessment 134
peptic ulcer
the moon and gastrointestinal bleeding 292
personnel recruitment
historical status of nursing research 272
postnatal depression
screening of post-partum depression 72
exercise, support and postnatal depression 177
postnatal well-being
exercise, support and postnatal depression 177
postoperative
the problem of postoperative pain 257
practice
nurses' role in psychoactive substance use 102
pram-walking intervention
exercise, support and postnatal depression 177
prenatal
screening of post-partum depression 72
prevention
implications of in-hospital adverse events 21
primary nursing
medication management of elderly people 166
professional
managing professionals 58
professionalism
professionalism and Irish nursing research 145
psychosocial
psychosocial care for older people 39

qualitative research
positive spiritual outcomes for survivors 280

referral and consultation pathways
medication management of elderly people 166
rehabilitation nursing
ICF and patient assessment 134
rehabilitation
psychosocial care for older people 39
relationships
ICD support group attendance 127
repeated measurements
errors in body temperature assessment 216
research instruments
screening of post-partum depression 72
research policy
professionalism and Irish nursing research 145
risk management
implications of in-hospital adverse events 21

screening programme
screening programme, Smith Island, USA 242
semiautomatic external defibrillators
in-hospital shock advisory defibrillation 86
shock advisory defibrillators
in-hospital shock advisory defibrillation 86
Smith Island
screening programme, Smith Island, USA 242
social isolation
ICD support group attendance 127
social support
exercise, support and postnatal depression 177
book review 195
spirituality
positive spiritual outcomes for survivors 280
standardized
errors in body temperature assessment 216
stroke survivors
managing as carers of stroke survivors 121
study abroad
the process of intercultural competence 111
substance use
nurses' role in psychoactive substance use 102
suffering
suffering related to health care 248
support groups
ICD support group attendance 127
support
positive spiritual outcomes for survivors 280
survivors
positive spiritual outcomes for survivors 280
systematic review
alcohol-based solutions for hand hygiene 3

Taiwan
taiwanese nurses and HIV/AIDS 32
tendering
managing professionals 58

uncaring
suffering related to health care 248
undergraduate nursing education
ICF and patient assessment 134

variceal bleeding
the moon and gastrointestinal bleeding 292
vital signs
implications of in-hospital adverse events 21

women's health
mothers' experiences of mother blaming 150
